Important Notes:

1. The roads in the Central Virginia are not designed for cycling. Among other hazards, many of the roads have little to no shoulder, high speed limits, and blind turns. The fact that a road is included on this cue sheet does not mean that the road is considered safe for cycling. Always exercise extreme care when cycling on central Virginia roads.

2. Do not look at this cue sheet or map while riding. It is not safe to take your eyes off the road, even for a second. Always come to a complete stop first.

Center Cross Ride

Center Cross Ride

Route Description

This route is a loop from the small town of Walkerton on the Mattaponi River to the Center Cross area on Route 17 and then back to Walkerton. Most of the route is in King & Queen County, although a portion of the route travels through Essex County on the return. Much, but not all, of the route is extremely rural with cars few and far between. The first half of the route is relatively flat with a few hills. The second half of the route has quite a few, mostly modest, hills. Other than Walkerton and Center Cross, there are no commercial facilities anywhere on the route. The store in Center Cross is open on Sundays and has a restroom.
