

Lebanon Air Line State Park Trail

Trail Highlights

This trail is part of the 50-mile Air Line State Park Trail that begins in East Hampton and ends in Putnam. The Lebanon section of trail is passable but is unimproved. This 7.5-mile section begins at the Hebron town line, where it connects with Hebron's portion of the trail. It then travels in a northeast direction, over a small brook, and then to Leonards Bridge Road. The trail then intersects Pine Street, crosses into the town of Columbia and over Route 87 before re-entering Lebanon. The trail continues to Cooks Hill Road, followed by Spinning Mill Brook. Then the trail crosses Village Hill Road, before intersecting with Kingsley Road. The trail meets its terminus at the Windham town line. To continue, see detour through Windham on page 10.

Parking and Accessibility

Parking is available on the Hebron section of the trail (see page 6).
