

Vernon

Vernon Rails to Trails Park

Trail Highlights

The 5-mile trail begins at the Manchester town line, just south of Taylor Street. From here the trail progresses through a forested area until it intersects Washington Street. Near Warren Avenue the Rockville Spur branches off to the north and crosses the Tankerhoosen River via a footbridge. Through this section the surroundings are primarily residential until Tunnel Road, after which, the trail runs back into a forested area. From Tunnel Road, the trail continues through this forested section to the Bolton town line. At this point users can pick up the Hop River State Park Trail in Bolton. The eastern portion of this trail was constructed by the Connecticut Army National Guard.
